### ABOUT ME

A highly motivated software engineer with a strong passion for coding, software development, and data science. Experienced in full-stack development, authentication security, and business process modeling. Always eager to learn and apply new technologies.

### TÆKNI

- Programming languages**
  - Java, Python, SQL, R, HTML, CSS, Javascript
- Technologies & Tools**
  - Docker, Microservices, Autodesk Inventor
  - REST API, Camunda, Git (Github/Gitlab)
- Security & Authenticity**
  - Authentication and Security
  - JWT

- Systems & Architecture**
  - Event-driven systems
  - Business process modeling
    - BPMN
    - DCR
